Refrigerated Logistics

**Delivering fresh ideas
in food logistics**

We Tailor Our Services To Meet Your Needs

Logistical Services

Your way is our way.

Logistics

If your way is to send us a truckload for distribution to multiple location receivers, that's the way we'll do it.

If your way is to have us pick-up multiple orders and bring them back to our hub – where we match-up those orders with other orders for outbound final delivery – that's our way, too.

You can even drop off packages that missed an appointment.

Every business has different needs, so we work with you to develop a plan that meets your needs. We simply don't have one plan that fits all. In fact, we probably have as many plans as we have customers.

Your products get handled your way

- Daily scheduled LTL service to Minnesota, Wisconsin, North Dakota, South Dakota, Illinois, Iowa, and Nebraska (Any size, On-Time, and Tailored Services)
- Weekly LTL and TL service to 48 states
- Customized flexible schedules – Multiple stop LTL and truckload

Our logistics department also offers consolidated inbound rates that make line-hauling multiple orders to our hub less expensive. (Individual LTL rates don't apply until the orders are broken out for final delivery at our hub.)

Customized

On site or off site—logistics services to meet your specific company need.

Hudson will place our own employees at your site to handle your logistics. If you determine with us, that it is the most useful solution to your logistics needs. Whether full time or part time, temporary or permanent, Hudson's personalized service will make your logistics more effective and less costly. We know trucks and warehousing, let us bring that knowledge into your organization as a cost control service.

Hudson offers personalized and customized logistics solutions to increase your efficiency, on-site or off-site, Hudson will implement for you whatever makes sense for your company's benefit.

Our trained logistics specialists are knowledgeable in costs and efficiency, and customer requests are backed up by our own operations team. Your company can save time and money by having the assurance of working with a reliable service provider.
